

User Account Information (Student/Teacher/Admin)

Vennela Gudlavenkatasiva

FBLA 2017 -2018 Mobile Application Development (NLC Submission)

*****Note:**

1. All the “User Profile Data” listed below does not correspond to any real person. The data was created with random names, emails, IDs and phone numbers.
2. Currently, users are registered by default to Middleton High School. However, to demonstrate Tomely’s ability to be seamlessly integrated with other high schools, a prototype of this multiple school support is made available through guest access. In the future, the high school dropdown [on the register screen] will include more school choices and depending on the registered user’s school, the system will navigate automatically to the relevant homepage.
3. The only valid email in the test accounts below, is the admin email, tomelyfbla@gmail.com. Since the emails provided for the other test accounts are fictitious and invalid, email remainders for these users are all forwarded to the admin email tomelyfbla@gmail.com. However, if new user account is created with a valid email address, the email notifications will be sent to that email.
