

## Any book, anywhere

The HHS Library app's cutting-edge vision algorithms allow it to recognize any book, anywhere. Scan a book at your local book store to hold it at your school library!

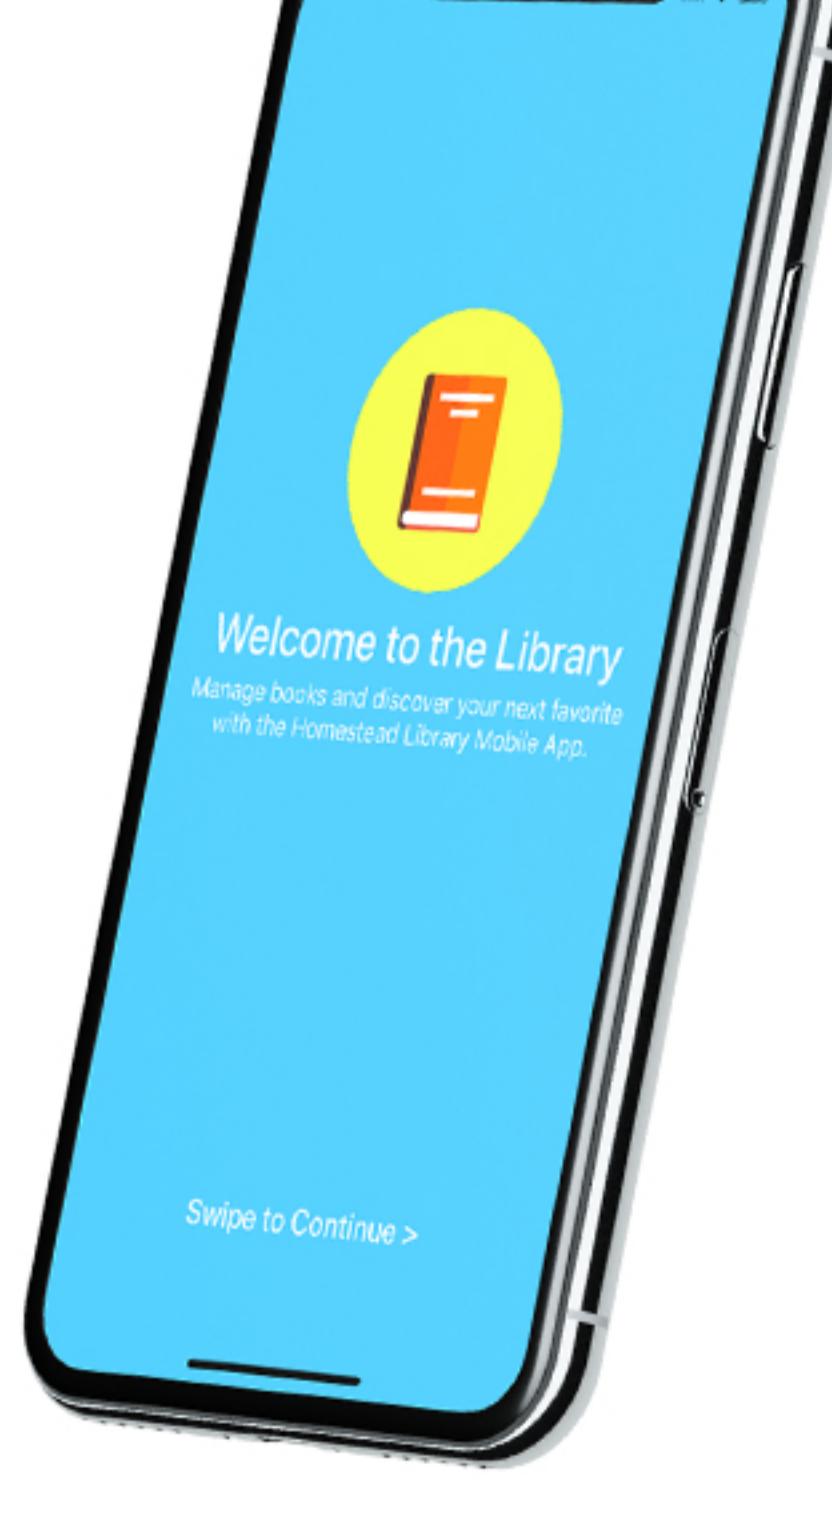

## Community-driven

Powerful social features powered by Facebook's robust Graph API connect the library community in unprecedented ways. User reviews, favorites, and patron engagement foster communities that extend from the digital realm to the physical world.

## Tangible impact

Beta-testing being rolled out at Homestead High School with plans to expand to all 5 of the Fremont Union High School District high school campuses.

## Experience it for **you**self!

Follow the instructions in the included README to experience the Homestead High School Library Application for yourself. Thank you for contributing your time to adjudicating this competition.

This project has been a catalyst of personal and professional growth for all involved.
